THE BLAIRMORE ENTERPRISE, THURSDAY, MAY 6, 1926.

## DEATH OF MISS MARY SERRA

The entire Pass district was shocked on Sunday last to learn of the death of Mary, the nineteen-year-old daughter of Mr. and Mrs. John Serra, of Bellevue, following but a very brief illness. Miss Serra was well known and extremely popular. Miss Serra is mourned by her father and mother, Sister Edith and three brothers, Martin, Ernest and Willie.

Funeral took place on Tuesday afternoon and was one of the largest ever seen in the district. The remains were laid to rest in Bellevue cemetery.

The sympathy of all goes out to the family in their sad bereavement.

Following is a list of the floral tributes:

Wreaths—The Family, Mr. and Mrs. W. J. Cole and family, Mr. and Mrs. G. K. Strett and family, Mr. and Mrs. John Bovio and family, Mr. and Mrs. A. Iorio and family, Mr. and Mrs. P. Ubertino and family (Blairmore), Brunetto and Aschacher families (Blairmore), Mr. and Mrs. William Robinson and family (Hillcrest), Mr. and Mrs. Favero and family, Mr. and Mrs. S. Berry, Mr. and Mrs. Fidane and family, Mr. and Mrs. B.

The above list may not be complete.

### TOWN COUNCIL MEETING

The regular fortnightly meeting of town council was held on Monday night, the mayor and all councillors and the secretary-treasurer being in attendance.

The minutes of previous regular and special meetings were read and approved and a batch of accounts were passed for payment.

A communication from Mayor Burns, of Coleman, was cited. In this the council was asked to consider jointly with Coleman the matter of fixing up the lakeside resort at Crows Nest Lake, and the council forthwith appointed a committee for that purpose.

Mr. W. M. Bush was granted permission to erect a gas shed on the east side of his building on Victoria Street, same to be of fireproof construction.

A letter was received from Secretary Scott, of the Blairmore Board of Trade, expressing the board's appreciation of the action of the town council in becoming affiliated with the All-Canada Red Trail Association. The council was assured of the board's co-operation and assistance at all times.

Mr. Hall, of Lethbridge, wrote asking the council to have a cellar on his lot on Dearborn Street west fenced, so as to safeguard the public, and to submit bill to him for settlement. This work will be undertaken at once.

A report from the chief of police stated that all tools belonging to the town and the Dominion government, that had been used on the river-cribbing and dredging job, had been gathered in and that none were missing.

Mr. Gillis, as chairman of the finance committee, tabled a copy of a semi-monthly paper covering the accounts in connection with the cribbing and dredging work done along the river here last year.

### DEATH OF MR. A. BAIN

The death occurred at Hillcrest on Sunday afternoon last, at the home of his son, Mr. A. Bain, following a paralytic stroke.

Mr. Bain was sixty-nine years of age and a native of Scotland, coming to this country with his wife about two years ago.

He is survived by a widow, four sons and three daughters, the sons, James and William, of Vancouver; Alec, of Hillcrest; Henry, of Scotland; daughters, Mrs. Penman, of Blairmore; Mrs. Sinclair, of Hillcrest, and Mrs. James Mitchell, in the Old Country, and a brother, Robert Bain, also in the Old Country.

Funeral took place at Hillcrest on Tuesday afternoon and was largely attended, the remains being laid to rest in Hillcrest cemetery.

The family desire to thank all friends for various expressions of sympathy.

### MINER KILLED AT COLEMAN

An old timer named John Boyce, met death by accident in a Coleman mine on Monday evening. Mr. Boyce had been a resident of Coleman for about eighteen years and was well and favorably known. He is survived by a wife, son and daughter. The son, John, is manager of a Nanton drug store, while Jean, the daughter, is at home with her mother.

The remains were laid to rest at Coleman yesterday.

### DEPTHES OF THE OCEANS

The greatest known depth of the sea is said to be 32,000 feet, about forty miles north of one of the Philippines Islands. At this point the ocean bottom would be about eleven and a half miles lower than the top of Mount Everest, says "Science Siftings."

### J. L. PARKER RECEIVES CONSERVATIVE NOMINATION

At a largely attended meeting of delegates from all parts of the Rocky Mountain constituency, held in the Orpheum Theatre here on Wednesday afternoon, Mr. J. L. Parker, of Lee Ranch, Burmis, was chosen as Conservative standard bearer to contest this riding in the approaching election.

Mr. Parker is an old timer in the province and is wide and favorably known, particularly throughout the mining centres. Mr. Parker is really a farmer-miner.

### LABOR CONVENTION MAY 21st

A convention of Labor delegates will be held in Blairmore on Friday, May 21st, at which a candidate to contest the forthcoming provincial election will be chosen.

### REPORT OF COAL COMMISSION

Through the courtesy of Mr. Frank Wheatley, a member of the Alberta Coal Commission, we have received a complimentary copy of the commission's report recently submitted to the government.

The report is very concise, contains an enormous amount of information that otherwise could never have been assessed regarding the coal and subsidiary industries of value, and will no doubt find a place in the library of hundreds who make a study of our coal mining.

Following is the foreword by Mr.

H. M. E. Evans, chairman:

Of the three commissioners signing this report, one is a mining engineer, actively connected with several large collieries in the province; another is a practical miner who is no less active as a member of a miners' organization and is president of the Alberta Federation of Labor; while the chairman is over in any association with the industry. Recognizing at the outset the comparative futility of divided counsels, a report has been produced that is unanimous. No doubt, certain of the findings of fact have been recorded and certain of the recommendations made, with unequal degrees of enthusiasm. No doubt, on occasions, some of the commissioners might have been inclined to go farther in this or that direction. Perhaps, even now, they may differ in their estimate of the relative importance of various parts of their common conclusions. The whole object of this foreword, however, is to lay stress on the fact that it has been possible to agree on so much. In the chairman's estimation, that general feature of the report is, perhaps, more significant than any particular thing contained in it—more full of hope that the men of good will on both sides may combine to ensure that peace within the industry, which is incomparably its greatest need."

The members of the commission are H. M. E. Evans (chairman), Mr. R. G. Dringan and Mr. Frank Wheatley. Only a limited number of copies of the report have been printed and copies may be had from the Alberta Mines Branch, Edmonton, for the nominal price of \$1.00.

### PRETTY TOUGH LUCK

The Vegreville Observer in a recent issue remarks: "To our extreme regret the Hon. Mr. Robb has robbed us of any chance of ever paying an income tax. For years we have struggled to get enough income to enable us to pay something to the government, but without avail. Now, Mr. Robb comes along, boosts the exemptions and makes our job not only harder, but impossible. We give up."

Female costumery is not less becoming, but becoming less.

### PERMIT US TO INTRODUCE "COL." EDDIE SUTHERLAND

Meet "Colonel" Edward Sutherland, motion-picture director, who made "Behind the Front" for Paramount. Sutherland annexed the title of "colonel" during the filming of the picture because he commanded a regiment. Up to that time he was just plain "Eddie."

"Behind the Front" is a side-splitting story of the A.E.F. in France, with Wallace Beery and Raymond Hatton as soldiers, and Mary Brian as a charming way worker who started—and finished—all the trouble.

"I don't know when I ever got such a big kick from anything as I had in 'Behind the Front,' and wheeling a regiment of troops over the battlefield," said Sutherland.

The war scenes in "Behind the Front" are declared to be among the most realistic ever filmed. The humor of the war is predominant in the picture.

It is an adaptation of Hugh Wiley's "Saturday Evening Post" story, "The Spoils of War." Ethel Doherty wrote the screen play. "Behind the Front" will be shown at the Orpheum Theatre, Blairmore, and at the Grand and Palace Theatres, Coleman, on Saturday and Monday with matinees on Saturday.

The beer parlor employees of Calgary have formed a union.

### DEATH OF MRS. BAYNE

The death of Mrs. Bayne, widow of the late David Bayne, of Emmerson, Manitoba.

Mrs. Bayne is survived by one son, Mr. James Bayne, of Highlea, Saskatchewan, and two daughters, Mrs. Mary Steeves, of Calgary, and Mrs. Ellen Madson, of Lumbrick. She would have reached her eightieth birthday on May 25th. Deceased was active and up and around the house to within a few minutes of her death, which occurred while in conversation with her daughter, Mrs. Steeves.

Funeral service was held at Graham & Brennan undertaking parlors, Calgary, on Wednesday, after which the remains were shipped to Emmerson, Manitoba, for burial on Friday. Mrs. Steeves and Mr. J. Bayne accompanied the body east. Mr. Gordon Steeves, of the Blairmore Pharmacy, a grandson, attended the services in Calgary.

An interesting record for long distance radio reception on a moving train was established recently when the Continental Limited, the transcontinental express of the Canadian National Railways, picked up and held for thirty minutes a broadcast from Vera Cruz, Mexico, just as the train was leaving Holden, Alberta, enroute to Vancouver.

## The Dominion Budget

While naturally there will be differences of opinion in regard to details of the Budget presented to Parliament by Hon. J. A. Robb, it will, taken as a whole, be acceptable to the people of Canada as constituting the first substantial measure of relief from the burden of taxation imposed upon them by the war, something which a few years ago it seemed would not be enjoyed by the present generation.

The chief reduction in taxation is that resulting from the changes in the Income Tax. These changes are so arranged as to bring the greatest measure of relief to those in receipt of the smaller incomes. It is estimated that about one-third of all people formerly paying taxes on earned incomes will now be entirely exempt, while decided reductions are made in the case of those who will still have something to pay. The reduction in the case of those whose incomes are largely derived from investments and dividends will not be so material.

The celebration of next Dominion Day by a return to the old two-cent postage rate will be a welcome each individual Canadian. It may not mean much to the casual letter writer, but it is an important contribution to the more economical conduct of business. Furthermore, it is doubtful if it will mean any considerable reduction in postal rates, because the smallness houses will again revert to the sealed letters at the one-cent postage rate, but who found the three-cent rate prohibitive where large numbers of letters were involved. Nevertheless it cost the post office department just as much to handle the unsealed circular as it did to handle the sealed one.

Public discussion of the tariff changes centres almost exclusively on the lowering of the duties on automobiles of the cheaper types. The immediate effect has been a reduction in automobile prices, welcomed by the public generally, but which some automobile manufacturers insist means the closing of Canadian factories because they cannot compete with those in the United States. This remains to be seen, because no less an authority than Henry Ford states that his firm can manufacture just as cheaply in Canada as in the United States, and that they have been getting higher prices in Canada simply because it was possible to get them by reason of tariff protection. The tariff reductions may mean a smaller profit per car to the manufacturer, but, according to Mr. Ford, cheaper cars means more cars sold, and the more cars sold, the larger the manufacturers' profits. Further, up to a certain point, the more cars manufactured, the lower the cost of manufacture.

Aside from the relief occasioned by the Budget reduction in taxation, people are interested in learning what national developments have taken place to make these reductions possible. Apparently there are many factors involved.

In the first place, there has been a notable improvement in business conditions throughout the Dominion, with a large increase in the trade of the country, increased industrial activity, and a lessening in unemployment. The bountiful crops of last year were largely instrumental in effecting this improvement.

As a result, government revenues have been substantially increased, thus assisting to make tax reductions possible.

The second main factor is the decided betterment in the finances of the Canadian National Railways. A few years ago this system was national in name only. It consisted of a lot of separate railways, several of them more or less at loose ends, and the services being provided were a subject of sharp criticism and even ridicule. Now, under Sir Henry Thornton's management, the various lines have been co-ordinated and consolidated in a truly national system, and the services provided compare favorably with the best on the continent. The confidence and patronage of the public has been gained, the result being that whereas a few years ago the railway was not even earning its operating expenses, and the Dominion treasury was called upon for sixty to seventy million dollars a year to meet deficits and interest charges, last year there was a large surplus on operation, making it necessary for the Government to advance only a tenth of the sum previously required to meet interest charges.

The removal of this enormous drain on the treasury enabled the Government to reduce the burden of taxation on the people as a whole. A continuation and further expansion of business means larger direct revenues to the Government, but it also means increased traffic for the railways and a still greater betterment in C.N.R. finances. The figures for last March show that not only is the betterment being maintained, but increased net earnings for that month showing an increase over a year ago of over two and a half million dollars, or 15 per cent.

The sum and substance of the whole matter is that the people of Canada are working out their own salvation, and by hard work, the solution of their problems, and real determination are putting Canada on its feet.

Mr. Braga—*I suppose you know I'm singing in the church choir now?*  
Patient Friend—*No, I didn't. Mr. Braga—but surely your brother Tom told you I had joined the choir?* Patient Friend—*Oh, yes, he told me that.*

Customer—*I only had a leg and you charged me for a complete chicken.*  
Waiter—*That is in our custom.*

Customer—*Then I am glad I didn't order a beef roast.*

An Oil that is Praised Everywhere—  
Dr. Thomas' Electric Oil was put up in bottles with labels and sold over fifty years ago. It was up to meet the wants of a small section, but as soon as its merits became known it had a wide confine for a field, and to my mind and I think them to be derived a great deal of benefit from these claims and I think them to be well founded.

Some married men wouldn't object to playing second violin if the orchestra to which they belong gave only private performances.

## Girl Was Fast Worker

Packed 32,400 Biscuits in Nine and a Half Hours

Packing biscuits totalling 32,400 lbs. in nine and a half hours, an English girl of 18, employed by the Shredded Wheat Company of Great Britain established a world's record. She had only been on the job a few weeks. The Marquis of Salisbury, who recently officially opened the company's new factory, congratulated the girl very warmly on her achievement.

#### Grain For Italy

The largest shipment of grain yet made from the grain elevator at Hazelton and the first ever to be made from that port to Italy, left recently on the steamer Afghanistan, which carried 308,000 bushels for an Italian port.

## RHEUMATIC PAIN AND THIN BLOOD

Liniments of No Avail — The Troub Must Be Treated Through the Blood

The most a rheumatic sufferer can hope for is to subdue something on the surface, achieving little in the little and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood vessels, as the trouble goes on the blood becomes thin and then thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood.

This is why Dr. William's Pink Pills have proved so beneficial when taken internally.

They make new blood which carries the poisons away and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, taking Dr. William's Pink Pills. That is why we are free from the aches and pains of this dreaded trouble.

One of these is Mr. Robert Smith, Mervay Point, N.S., who says: "Ten years ago I was attacked with rheumatism, which grew so bad that I could not walk and had to go to bed under the doctor's care. He did not say that I must get rid of the trouble, so I took Dr. William's Pink Pills. I did, and after taking them for some weeks I was able to get out of bed. I continued using the pills and I am now able to work, and I have been healthy ever since."

In other respects also Dr. William's Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from the Dr. William's Medicine Co., Brookville, Ont.

Mother can easily know when children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

#### Muskat Farm For Alberta

Fifteen quarter sections, or 2,400 acres, have been purchased by the Bruce Farming Company, Limited, as a muskrat farm at Carlot Lake, Alberta. There is a nucleus of 500 rats already in the lake and these will be strictly protected. Alberta now has muskrat, raccoon and fox farms.

## The Care of Her Baby Weighs on the Energies Of the Mother

People Could Gradually Eliminate Sleepless Race Possible

Sleep Say Experts

We tell you that long sleep may be harmful, deadening the activities of the mind and body. A physician who has been studying the mystery of sleep, has gone so far as to advance the theory that it may be possible to develop a sleepless race.

He declares that eventually we may eliminate sleep by scaling it down gradually and getting accustomed to going without it.

A way to do this, he suggests, is to reduce our sleep five minutes at the end of sixteen years, provided we start at eight hours a night, "the stupor of sleep would be banished if it could be."

Limits Earnings To \$20,000

No one in France is permitted by law to earn more than \$20,000 a year. Such is the surprising—and perhaps unforeseen consequence of the taxes and surtaxes voted by parliament this year in an attempt to restore the nation's finances.

Many Unsafe Drivers

"Some men," says the Chicago Journal of Commerce, "never can be safe drivers because they are unable to react quickly and correctly to the unexpected event." Nevertheless, they are driving cars. Detroit Free Press

## The British Will Take Chances

Britain Prepared to Limit Military and Naval Protection to the Limit

The continental powers will present a spectacle of war psychology, a kaleidoscope of international rivalries and a phantasмагория or political suspicion. Your Britisher, however, has to work upon his own business. He wants to make things better for himself.

At the same time, he recognises that he cannot achieve complete safety in that until things are made better for others. He looks upon the others not so much as possible competitors as possible customers.

He, of course, occupies a specially favored position. He knows that, and is ready to leave it to his military and naval and aerial advisers to determine what is the minimum of protection he requires. He is, in fact, willing to take chances, because he has come to the conclusion that sensible people do not want another Armageddon.

In other words, he has had more than enough of the torious roads of war, and he wants to tread the paths of peace. He is ready to credit his continental neighbors with similar desires. Your continental European friend has not yet reached that stage. London Correspondence of the New York Times.

#### Irish Free State

#### Favors Married Men

Should Have Higher Pay Than Bachelors Opinion of Government

Ordinary remuneration for service is according to the value of the service, without regard to the needs of the person who gives it. A married man gets no more than a bachelor, although he may be much greater. The government of the Free State is of the opinion that there should be equalization in pay for the married men in the public service, and accordingly proposed a new schedule of pay. It is evident that this change has been made not so much as a matter of justice as because it is deemed good public policy. Evidently the government intended to do something to encourage marriage.—Hamilton Herald.

#### Best Fireproof Building

An insurance inspector claims that wood is a better risk against fire than steel and concrete. "Oak," he said when charred on the surface, ceased to be dangerous, but the safest of all timber was Lombardy poplar, which refused to burn at all. The most fire-proof building he knew was one built entirely with this wood, and the cost for general use is prohibitive and the public welfare inadequate.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

#### Huge Development Scheme

Great Activity Shown In Northern Manitoba Mining Area

A development scheme involving an expenditure between \$10,000,000 and \$15,000,000, will be launched in the Flin Flon mining area of Northern Manitoba, as soon as a railway line is built into the area and tests for treatment of ore completed, according to J. P. Watson, head of the Mining Corporation of Canada. The plans of the company, according to Mr. Watson, provide for the establishment of a townsite, erection of a smelter with a capacity of 2,000 tons of ore a day. It is also proposed to develop 30,000 horsepower on the Churchill River.

Alberta School Attendance

The total attendance in the public elementary and secondary schools of Alberta last year was 147,796, according to a report of the department of education.

Of this total 50,357 were in 66 day schools, and 93,439 in 24,622 in other graded schools, 5,623 in 10 separate school districts, 8,556 in 67 consolidated schools, 6,816 in 93 rural graded schools, and 65,175 in 2,327 ungraded schools.

Minard's Liniment for backache

## Let Tanlac

### restore your health

If your body is all flagged out and run down, if you are losing weight steadily, lack appetite, have no strength or energy—why not let Tanlac help you back to health again?

Thousands of millions have been effected by the Tanlac treatment, as many thousands have written to testify to the fact that it's sheer wonder.

Tanlac is a great natural tonic and builder, a compound, after the famous Tanlac formula, of roots, barks and herbs. It purges the blood and relieves the digestive organs and enables the sickly body to regain its vanished weight.

You don't need to wait long to get results. Tanlac is right to the point of trouble. In a day or two you note a vast difference in your condition. You have more appetite, sleep better at night and the cold, heat and chills are back into your washed-out cheeks.

Don't put off taking Tanlac another precious day. Step into the nearest drug store and get a bottle of Tanlac. Tanlac is the first important step back to health and vigor. Every day's delay means unnecessary suffering. Tanlac starts to clean out and tone up the system right away. And

Mother Thanks Tanlac for Daughter's Health

"Kathleen (17) was nervous and unwell, easily exhausted and had no desire to eat. She had a cold, sore throat and a headache. Tanlac helped her right up, and now she's healthy and happy again. She enjoys food and company like a child."

Mrs. G. Baker  
12 Earl St.  
Kingston, Ont.

by acting promptly you will avoid further loss of energy and weight due to your present run down condition. Take Tanlac Vegetable Pills for constipation.

#### Claims A New Record

St. Louis Post-Dispatch Recently Issued Eighty-Four Page Paper

The St. Louis Post-Dispatch established what it declared to be "a new high world record for a regular weekly issue of any newspaper ever published in any of the leading cities of the world." Heavy retail advertising was the reason for the unusual size. One department store took sixteen pages. The Post-Dispatch's previous record for a regular weekday edition was seventy-six pages last Oct. 23.

#### Not a Sign of Backache Since

Saskatchewan Lady Took Dodd's Kidney Pills and Her Trouble of Three Years Standing Disappeared

Mrs. R. Koalo Was Unsuccessful with all Other Remedies

Willow Brook, Sask.—"I have been troubled with backache for almost three years. I have tried all kinds of medicines but they didn't help me at all."

"I sent for some Dodd's Kidney Pills and they did me much good. I have not had a sign of backache since."

This statement comes from Mrs. R. Koalo, a woman who got this trouble because the kidneys is evidence by the immediate relief she got.

Weak kidneys are not confined to grown people only. They are too often found in the young. The chances of future ill unless the kidneys are strengthened and put in condition to do their work.

Dodd's Kidney Pills have been tried and found to be an excellent kidney remedy. They will do you good at once, and better still, time will prove that the good they do is lasting.

#### Useful Art of Printing Press

Work Has Extended to Production of Floor Rugs

The art of printing is not limited, it would seem, to the printing of paper. The usefulness of the printing press has now extended to the production of floor rugs. Many brooms and copper rolls are in service to print carpets, cloths, blankets and even silk materials.

Miller's Worm Powders do not need the after-treatment of castor oil or purgatives, some强有力 drugs, because they are thorough in themselves. One dose of them, and they are bound palatable by any child.

Of this total 50,357 were in 66 day schools, and 93,439 in 24,622 in other graded schools, 5,623 in 10 separate school districts, 8,556 in 67 consolidated schools, 6,816 in 93 rural graded schools, and 65,175 in 2,327 ungraded schools.

## RESIGNATIONS FOLLOW CUSTOMS INVESTIGATION

Ottawa.—Revelations before the parliamentary committee investigating the administration of the customs department have resulted in the resignation of two members of the civil service commission. Clarence Jameson and M. G. Laroche submitted their resignations to Premier King tonight. The resignations are contained in two brief letters which the commissioners sent to the prime minister.

Mr. Jameson states that in the discharge of his official duties he was not in any way influenced by the occurrences referred to before the parliamentary committee. He felt, however, that the incidents referred to will be the subject of such misconstruction and comment as to impair my usefulness as a member of the civil service commission."

"I have scrupulously accomplished my duty for nearly 18 years—my conscience is absolutely clear," Mr. Laroche states in his very brief letter of resignation.

Evidence was submitted before the parliamentary committee that R. P. Clark, inspector of customs at the Port of Montreal, had forwarded consignments of gauner's liquor to Messrs. Jameson and Laroche.

Premier King suggested to Messrs. Jameson and Laroche the advisability of their "asking to be relieved of the duties of their office" pending the report of the customs investigating committee to the house.

### Saskatchewan Egg Pool

**Seeders Operators Interfere With Work of Canvassers**

**Rogers**—With the weather favorable to seeding operations, canvassers securing contracts for the Saskatchewan egg and poultry pool have been unable to give as much individual attention to this work as in the past, with the result that no single canvasser has secured over 30 contracts. The maximum required in the industry chick competition conducted by the pool last week. The flow of contracts to headquarters is still being maintained in a steady volume, new canvassers taking up the work each week. Nearly 16,000 contracts have been secured to date.

Mrs. E. R. Thomson, Nut Mountain, was declared the winner of the trade mark competition today. There were 256 designs submitted in the contract and Mrs. Thomson's effort scored by reason of its simplicity and suitability for the purposes of a trade mark. Many of the designs submitted revealed clever draftsmanship, but were too ornate to be suitable for a trade mark.

### Robby Leach Dead

**Man Who Went Over Niagara Falls In Barrel Killed By A Fall**

London—Robby Leach, who on July 25, 1911, gained world-wide notoriety by taking a trip over Niagara Falls in a steel barrel, and emerging alive, is dead from injuries received in Christchurch, N.Z., when he slipped on a pile of banana peels in the street, reports from the Evening News, N.Z., state.

Leach was severely battered in his sensational drop over Niagara Falls, but his injuries did not prove to be serious. He was 48 years old when he performed this feat.

**Fascism To Rule**

Rome—Fascism will continue to rule Italy with its iron hand. Premier Mussolini declared before a special session of the chamber devoted to thanksgiving ceremonies for his escape in the recent attempt on his life. "In no case or for no reason will Fascism change its programme," the premier said. "Everything at this moment is pre-arranged."

**Government Lakes Elevators**

Winnipeg—A group of fifteen grain elevators, owned by the province of Manitoba has been sold to F. M. Wiley, a grain operator of Winnipeg; it was announced. The sale price was given as \$30,000. The Manitoba Government disposed of 18 of its elevators recently and 11 are still under its control.

**Liquor Cripples Mail Delivery**

Port Smith, N.W.T.—Post office officials report that mailing of liquor to Fort Smith last winter crippled the delivery of the ordinary mail. Only a stipulated weight could be conveyed on each trip, and this was taken up by liquor parcels.

### For Closer Trade Relations

**Canadian Delegation Attends Trade Convention in Charleston, S.C.**

Charleston, S.C.—The National Foreign Trade Council opened its thirteenth annual session here, and after receiving a message from President Coolidge, listened to inspirational speeches by the first delegates Canada has ever sent to the convention.

Planked by Union-Jacks and cheered by the United States delegates, 25 Canadians, led by C. P. W. Schwenges, president of the Victoria, B.C., Chamber of Commerce, presented an appeal for closer trade relations between the two countries.

The "sanity and steadfastness" of the English-speaking people, Mr. Schwenges said, and very little else, now "bind us between Canada and this country." Recalling the unguarded border-line between Canada and this country, he said it was a splendid lesson to the world.

**Heads Canadian Press**

**J. H. Woods, Calgary Herald, Is Re-elected President of Organization**

Toronto.—J. H. Woods, Calgary Herald, was re-elected president of the Canadian Press at its annual meeting held here, other officers being: Honorary president, E. H. Macklin, Manitoba Free Press; first vice-president, John Scott, Montreal Gazette, and second vice-president, F. B. Ellis, Saint John Globe.

Other directors are: G. Fred Pearson, Quebec Star; E. Archibald, Montreal Star; E. Donald Smith, Ottawa Journal; J. V. Macdonald, Toronto Mail and Empire; W. D. Brewster, Bradford Examiner; A. L. Reid, London Free Press; W. J. Taylor, Woodstock Sentinel-Review; M. E. Nichols, Winnipeg Tribune; Burford Hooke, Regina Leader; and Charles Swaine, Victoria Colonist. J. F. B. Livesay is general manager and secretary.

### Oil Company Charters

**Will Be Granted Charters Only Upon Basis of Stock**

Ottawa—Oil marketing companies from Alberta applying for Dominion charters will be granted charters only upon the basis of their stock issue, having no stated par value, according to an announcement made in the house by Hon. Ernest Lapointe, secretary of state, answering a question by A. U. G. Bury, Conservative, Edmonton East.

Mr. Lapointe stated some of the charters already had been granted and would be sent to the companies. The regulation regarding the value of stock would not apply to these companies.

### Rumor Is Denied

**Britain Was Not Asked to Conduct Wireless Telephone Experiments With Canada**

London.—In reply to a question in the House of Commons, Sir William Mitchell Thomson, postmaster-general, denied that Australia and Canada had asked the post office to conduct experiments in wireless telephone communication and that the post office had refused. He said it was impossible that this request could have been made as there were no stations in Australia or Canada suitable for conducting the experiments.

### Britain Will Not Interfere

London.—The British Government will take no action to prevent the disposal of historic manuscripts, art works, and historic buildings to America or other countries. Chancellor of the Exchequer Churchill said in reply to a question in the House of Commons.

### Appointed Arbitrator

MR. JUSTICE W. F. A. TURGEON, of the Saskatchewan Court of Appeal, who has been appointed third arbitrator in connection with the sale of the Saskatchewan Wheat Pool.

### Provinces Can Fix Minimum Wage

**Parliament Only Has Jurisdiction Over Salaries Paid to Government Employees**

Ottawa.—W. Stuart Edwards, deputy minister of justice, when appearing before a committee on industrial and international relations of the House of Commons, declared that, generally speaking, the various provinces of the Dominion had the exclusive jurisdiction to legislate in respect to the question of minimum wages.

"The Parliament of Canada," Mr. Edwards however, continued, "has the exclusive authority of jurisdiction to fix minimum wages to be paid to the servants or employees of the Dominion Government, where ever they are employed."

### AMENDMENT TO GRAIN ACT MAY BE PUT THROUGH

Ottawa.—After considerable negotiations, a tentative agreement has been reached between the government and the Progressive group on the proposed amendment to the Canada Grain Act.

The government will not make these amendments a separate measure, but will undertake to provide facilities for their consideration by the House of Commons. Furthermore, the government will give the amendment independent support and, among Progressives, there is no doubt but that the amendments will be approved in the lower house.

The most controversial provision in the amendment is one that would compel country elevators to guarantee to farmers grade and weight on grain no matter to what terminal elevator it is shipped. Herefore country elevators have only given this guarantee when the farmer permitted shipment to the terminal elevator selected by the contractor.

However, the growth of the pool has placed hundreds of farmers in a position where they must ship to the pool's terminal elevators. Under these circumstances country elevators declined to guarantee grade and weight. This amendment will be opposed vigorously by the grain trade.

As business in the house now stands, these amendments will not be reached until after the budget debate is concluded, which will be a week or two at least.

### EAST WILL TRY TO SECURE COAL FROM ALBERTA

**Toronto.—Representatives of some 25 Ontario municipalities assembled with Premier Howard Ferguson of Ontario and Premier J. E. Brownlie, of Alberta, here, unanimously adopted a resolution calling for the appointment of a special committee to make an effort to secure a supply of Alberta coal for Ontario. Urging that the opportunity to develop a national resource presented itself, the delegates asserted that the cause justified governmental subsidy.**

That the purchase of Alberta instead of American coal by the province would mean the realization of more than \$150,000,000 a year in circulation in Canada was the opinion expressed by Mayor Thomas Foster, of Toronto, in welcoming the delegates. The city of Toronto, he said, had succeeded in securing a sample of the western fuel during the past winter, and had found it entirely satisfactory.

"We have an inexhaustible supply of coal and sufficient to supply the whole Dominion of Canada for many years to come," declared Mayor Brearley. "We have an application before the Dominion railway board for a special out-of-pocket rate which would not be fair if we had it all the time, but if we can establish it to bring coal when the train is not moving and there is rolling stock available it will be a relief for all and a further development of it."

### Women Honored For Bravery

**Two Rewards by National Lifeboat Institution of England**

London.—Two women, representing 50 other women, launched a lifeboat and braved the waves in a wild winter night, have been honored by the Royal National Lifeboat Institution.

Mrs. N. Stephenson, daughter of the coxswain of the lifeboat at Boulmer, Northumberland, and Mrs. B. Stanton, wife of the second coxswain, received from Lord Foster the thanks of the committee of the institution, inscribed in velvet. The tribute was for their gallantry on the night of December 20, when they, with other women, dragged a lifeboat a mile and a quarter in the face of a blizzard and then stood by to launch it.

In March, 1924, the women also distinguished themselves on an occasion being up to their waists in snow in rescuing a shipwrecked crew.

### Shortage Of Farm Help

**Demand in Alberta For Men Experienced in Farm Work**

Edmonton—More vacant farm jobs waiting for men to fill them than there were a year ago, is the report from the government employment service. At the moment, says Commissioner Walter Stettler, there is no means in sight for supplying this demand.

The shortage is in experienced men who know how to handle farming equipment and animals. Farmers lacking experience are not in demand.

Particularly in the south country, the call is for men western-trained and ready to go to work without being shown.

### Follow Paths of Peace

Berlin—Chancellor Luther, speaking to industrial and commercial representatives, said that Germany was determined to follow the paths of peace and that the Russo-German treaty represented progress in this regard.

### Mosul Question May Soon Be Settled

**Concessions Offered By Britain More Important Than Territory**

Constantinople—Despite discontinued optimism among the people generally, Turkish official circles continue confident that the Mosul negotiations will end in an amicable settlement with Britain.

All hope that Mosul will be included in Turkish territory has been abandoned, but the British have promised other concessions which the Turkish leaders consider even more important than a practical, if less sentimental viewpoint.

These include a boundary of great strategic importance that provided for in the Geneva award and the security pact, in which the Irak Government, backed by Great Britain, undertakes to guarantee Turkey freedom from further menace of Kurdish revolutionary bands and other efforts on the part of the inhabitants of Mesopotamia to create trouble for the Turks across the frontier.

### Channel Islands Not Exempt

**English Death Duties On Property There Can Be Collected**

London—Judging by the answer given by Winston Churchill, chancellor of the exchequer, to a question in the House of Commons, the late Sir Robert Houston, ex-M.P., Liverpool shipowner, undertook a frantic task in his will, he made the Channel Islands his place of residence with a view to avoiding the imposition of death duties on his estate after his death. Sir Robert's possessions were stated to be valued at about £7,000,000. Mr. Churchill stated that he considered it would be a good prospect of securing death duties on the whole of Sir Robert's estate, including the portion of it in the Channel Islands.

### Another Gold Shipment

**Further Two Million Received in Canada From U.S.**

New York—The current gold movement to Canada has been further extended with a shipment of \$2,000,000 by the Canadian Bank of Commerce on Jan. 20, nearly \$15,000,000 since the rise in the cost of Canadian shipping to 11-64 of one per cent premium.

Continuance of the premium rate is expected in Wall Street to attract to Canada much of the \$65,000,000 in gold that came to the United States early this year.

### Helped With Advice

**Says Civil Servants Are Experts On Tariff Matter**

Ottawa—Sir George Perley asked in the house if the government would lay on the table of the house all the documents and letters relating to the "expert advice" which the premier had received prior to the reduction of the tariff on automobiles. Premier King, replying, pointed out there were several permanent civil servants who were experts on tariff matters. He referred to J. A. Russell, of the finance department, who had held conferences with the departments of customs and trade and commerce before any decision had been reached respecting automobile tariffs.

### LIVELY DEFENCE OF GOVERNMENT AND THE BUDGET

**Promises Given Farmers Union President by Minister of Railways**

Saskatoon—"Every assurance that work on the Hudson's Bay Railway will be pushed just as fast as it can be was given by the Hon. C. A. Dunning, minister of railways and canals, in the Federal Government," said J. A. Stoneman, president of the Farmers' Union of Canada. Mr. Stoneman has just returned from a visit to Ottawa on behalf of the union.

### Volume of Business Is Good

Victoria—The physical volume of business in Canada during the first quarter of the present year was maintained at a comparatively high level, says the Dominion bureau of statistics. New records in many lines were established during January and February. The index of the physical volume of business was 135.7 in February, as compared with 127.8 in the preceding month.

### Trade With the Orient

Vancouver—That the recent improvement in Oriental trade is in no way imaginary is proved by the heavy cargoes carried by the last few liners sailing for Japan and China from the port of Vancouver. In fact, recent port records in the volume of business being done with China is viewed by local merchants as a sure sign that the country is coming back to normal.

**Manufacturers to Meet**

Toronto.—The 56th annual meeting of the Canadian Manufacturers' Association will be held in Toronto, June 8, 9, and 10.

## SAYS IT IS THE BEST GUARANTEE OF WORLD PEACE

Ottawa.—With a strong friendly understanding between the peoples of the British empire and of the United States of America we can almost guarantee a world peace," F. W. Field, senior trade commissioner of Britain in Canada, told the annual convention of the Canadian Fire Prevention Association here.

"There is comparatively little difference in the ideals of the people of the empire and of the people of the neighboring republic, from which so many welcome visitors are here today. We are working for common causes. After all, we are on the other side of the Atlantic as a famous admiral once said, speak American—with an English accent.

"May I take this opportunity of making one observation about the general position of the United Kingdom? Any country which is satisfied with itself is already on the decline. I would like to point out that the United Kingdom is not satisfied with itself. The United Kingdom is still willing to learn."

Mr. Field brought the greetings of sister organizations in the British Isles.

### South Africa's Defence Force

**Changes Proposed By Minister Of Defence and Labor**

Cape Town, South Africa—Proposed changes in the defence of the Union of South Africa aiming at the creation of an air force capable of striking any enemy force anywhere within the Union was outlined by Colonel F. H. P. Creswell, minister of defence and labor, in the House of Assembly.

Colonel Creswell stated that furthermore when the government's military plans were carried out there would be the certainty of mobilizing 10,000 men and concentrating them within 72 to 96 hours within a radius of 150 miles and that there would be an additional force that would bring the total up to 25,000 men, properly equipped and able to take the field.

### Helped With Advice

**Says Civil Servants Are Experts On Tariff Matter**

Ottawa—Sir George Perley asked in the house if the government would lay on the table of the house all the documents and letters relating to the "expert advice" which the premier had received prior to the reduction of the tariff on automobiles. Premier King, replying, pointed out there were several permanent civil servants who were experts on tariff matters. He referred to J. A. Russell, of the finance department, who had held conferences with the departments of customs and trade and commerce before any decision had been reached respecting automobile tariffs.

### Will Push Bay Line Work

**Promises Given Farmers Union President by Minister of Railways**

Saskatoon—"Every assurance that work on the Hudson's Bay Railway will be pushed just as fast as it can be was given by the Hon. C. A. Dunning, minister of railways and canals, in the Federal Government," said J. A. Stoneman, president of the Farmers' Union of Canada. Mr. Stoneman has just returned from a visit to Ottawa on behalf of the union.

Here are Twenty-Nine Reasons Why Japanese Was Voted Most Beautiful Lady

During a contest held on board the Canadian Pacific liner Empress of Scotland, making the world cruise, the most beautiful tree, mountains, views, harbors, countries, streets and human beings, the virtually unanimous verdict on the final question was that the Japanese lady was the most beautiful and the most charming. Here are twenty-nine arguments in support of the opinion of the Empress of Scotland's passengers. They are the geisha girls, dainty singing and dancing entertainers of Japan, who performed at the Shotokwan Theatre, Beppu, for the travellers during their visit to that port on the 1925-26 World Cruise.

**CHANGES IN C.N.R. TRAIN SCHEDULES**

Important changes in passenger train schedules affecting all points, Winnipeg and west to the Pacific coast, in connection with the operation under summer time tables, were announced by Canadian National Railways officials at the end of April. The new service, which came into effect May 2, cuts down the running time of the Continental Limited one hour between Winnipeg and Vancouver, one hour and twenty-five minutes between Vancouver and Winnipeg, and fifteen minutes between Winnipeg and Montreal. Also the time of the National, between Winnipeg and Toronto, is shortened by forty minutes eastbound and one hour westbound, this by setting back the times of departure.

**SUMMER SCHEDULE OF C.P.R. STEAMERS**

**WINNIPEG**, April 17.—The summer schedule for the Great Lakes service of the C.P.R. was announced yesterday.

S.S. Manitoba will sail from Fort William on May 6th for Owen Sound and each Thursday thereafter to September 30th.

S.S. Keewatin will inaugurate the Fort William-Port McNicoll service, sailing from the former Saturday, May 22nd, and the Assinabou will sail each Wednesday and Saturday thereafter until September 29th.

Some men are not afraid of work—they sleep beside it.

**NOTICE TO CREDITORS AND CLAIMANTS**

IS THE ESTATE OF EMIL DYPOL, late of Frank in the Province of Alberta, Merchant, deceased.

**COWLEY HAPPENINGS**

Cowley is suffering a visitation of an epidemic called "Newcastle."

G. B. Wood was the guest of Mr. and Mrs. M. A. Murphy on Friday.

A belt of trees has recently been set out on the farm of Robert Welsh Bank.

Miss Hazel Dobbie is filling the position of stenographer at the Royal Bank.

William Lightfoot, of Calgary, was a business visitor here for a few days the latter part of the week.

Jack O'Connell motored to Waterton Lakes on Sunday, accompanied by Robert Hamelin and Brad Tustain.

Charles Tate, former elevator agent here for the Alberta Pacific Grain Co., of Summerland, B.C., spent the week end in Cowley.

A general interest in tree planting is evident in this district. There are already several belts here, which were planted a few years ago and all doing well.

Organization being the order of the day, the tenacious enthusiasts had a meeting on Saturday night and elected officers. President, George Ritson; vice-president, Ruth Cleland; secretary-treasurer, J. M. McDonald. We wish them success.

On Wednesday the Cowley Golf Club was reorganized for the season. Officers elected were: President, H. C. Morrison; secretary-treasurer, M. A. Murphy; captain, H. Swart. The course is reported in fair shape and all citizens and countrymen are invited to pay their fees and become good golfers.

On Wednesday last, the annual organization meeting of the Cowley Victoria Day committee was held. Officers were elected as follows: President, H. C. Morrison; secretary-treasurer, W. H. Hannan. A good program of horse racing events was planned, special attention being given to high jumping and hurdle. A baseball competition and bucking contest were also listed.

The Women's Institute held a very interesting meeting in the Cowley hotel parlor on Thursday night. Ways and means of beautifying the town were discussed. It was decided to make arrangements to beautify the two village church yards with hedges, trees, shrubs and flowers, and on further decision to offer a donation of fifty dollars annually towards a fund for the erection of a grandstand in the recreation grounds to the south of town. Mrs. Hannan was chosen as delegate to attend the provincial convention of the Alberta Women's Institutes, which will be held in the Palmer hotel, Calgary, on May the 25th to 28th inclusive. A resolution to protect the native wild flowers from being eradicated by adding the practical rules of floriculture to the study of botany in the schools was sent to be brought before the provincial convention. Luncheon was served by Mrs. P. McEwen and Mrs. Murphy. The next monthly meeting of the Women's Institute will be held at the home of Mrs. Doyle.

**BOYS COST LESS**

It costs \$90 less to raise a boy to the age of 18 years than it does a girl, according to an insurance survey at New York.

The figures were: girls, \$6167; boys, \$6077. It costs \$2500 each to feed them. The cost of birth is placed at \$250. The girl's clothing costs \$1002, the boy's \$912. That's where the difference comes in.

**LINES TO A FROG**

What a queer bird the frog are! When he sit, he stand, almost, When he walk, he fly, almost, When he sing, he cry, almost, He isn't got no sense—hardly. Draying

Last week the following item appeared in The Enterprise. "Last week was the first time in the history of the province of Alberta that school teachers have had to be ordered out of a public place because of misbehavior." We are asked by members of the local staff to state that they were in no way connected with the affair.

Citing the recent pronouncement of a London magistrate that it is permissible for a person to be intoxicated on his or her own doorstep, counsel for Barbara Campbell, 27, successfully appealed against her conviction for causing a disturbance while under the influence of liquor at Chase, B.C. The magistrate ruled that the warrant of commitment failed to show that the alleged offense had occurred in a public place. Miss Campbell had been sentenced to three months.

Occasionally one will hear the remark: "If wish I was out of this town," and then one feels like saying: "I wish you were," for the man who stands on the street corners, chewing and spitting, telling obscene stories, cursing the town because the streets are muddy, finding fault with his grandmother because she was a woman, claiming that the merchants are a lot of thieves, that the lawyers and the editor would skin a man to a finish, and a lot more, is a nuisance and an abomination—Ex.

A little unnecessary excitement was raised here on Sunday last over the disappearance of Alex McLellan, who had left his room at the Alberta hotel in the early morning and decided to take a walk as far as Hillcrest to visit some friends for the day. Alex had been in Blairmore to settle up accounts in connection with the burial of his brother, who died suddenly a few weeks ago. Mr. McLellan's home is in Grand Rapids, Michigan. He is sixty-eight years of age and states that on the very day that his brother Angus died here another brother died in the east under very similar circumstances. Mr. McLellan left by Sunday night's train, intending to stop over for a few days at Champion, where he has some farm interests.

Say, can you remember when Farmers raised more whiskers than wheat; when doctors wore plug hats and gave the same pill for everything; when people wore red flannel underwear in hot dance halls without the aid of perfume; when girls had to wait until a fellow learned a trade before he'd propose; when folks fitted themselves with spectacles out of a basket at the grocery; when side whiskers caught the girls; when we had to wait till the middle of June for lettuce; when preachers had to dress as if they were "laid out" to hold their job; when a woman would not climb into a buggy if anybody was looking; when belonging to the band was about as high as you could get unless you wanted to work in a livery stable, or some place, and wait your turn to be postmaster. And you sigh for the good old days.

But it shall never be said that the thrite of any thmal-thoughed villain had dithbath our preth, and if thith smeth the eye of the detethable rathcal we beg to ature him that he un-dethatched the rethroutheth of a fifth-thate preth when he thlith he can criphe it hopefull by breaking into the alphabet. **The Landau**

**C HEVROLET** has added another beautiful model to its line—the Landau—a handsome five-passenger car, with Fisher Body finished in Arizona Grey Duco.

The Landau reaches a new pinnacle of small car luxury and appointments. With distinctive leather top, with distinctive Landau irons and smart D-shaped windows in the rear.

It is upholstered in rich velour, which harmonizes

with the exterior finish, and is provided with a folding foot-rest and a robe rail. Pockets are built into the rear fenders, and the compartment is supplied with a smoking set.

Possessing the economy, ease of operation, quick acceleration and dependability for which Chevrolet models are famous, the new Landau represents a combination of value and quality never before presented in a car in its price class.

**HENRY FORD'S IDEA**

If you want to get rich and stay rich, read Henry Ford's series of articles, written in collaboration with Samuel Crowther, now appearing in the Los Angeles Examiner and other newspapers.

Ford, who has 600,000 men and women now working for him, starts in exactly the right way. He says that for hundreds of years, he might have said "thousands of years," men have been talking about lack of opportunity and the need of dividing up things already in existence. Yet each year has seen some new idea brought forth and developed, and with it a whole new series of opportunities.

We wonder the other day why so many of our golfers looked sorrowful. Twas because Drumm had lost his mashie on a course in California.

### Red Clover, Alfalfa And Sweet Clover

Correct Method of Acquiring a System  
of Permanent Agriculture  
(By Jas. D. McGregor, Glenarock  
Stock Farms, Brandon, Manitoba)

Tea as it should be

Red clover is perhaps the oldest and best known of all the legumes used in crop rotation, to furnish feed for livestock and to maintain the yield of grains. Where clover is grown successfully and used intelligently, it will accomplish all that should be expected of any crop. It is usually sown with small grain, produces a hay, and need crop the following year, and if plowed over, it may be cut the first year. It is the nature of this plant to store up the phosphorus in the soil which it makes good pasture and animal feed. A rotation of corn, wheat and clover, with stock to eat the corn and clover, allowing the manure to be returned to the land, approaches a system of permanent agriculture. A small amount of phosphorus in addition to the manure would make this system almost ideal.

However, there are few farms so situated as to approach this system. Red clover does not grow satisfactorily in all localities; neither does corn, and there is not enough livestock to consume the corn and clover if it were grown.

Alfalfa has proven to be adapted to many sections; its production is extending very rapidly, and those who are able to grow it successfully can wish for nothing better, either as a feed for livestock, or as a soil restorer. All good farmers are agreed that a combination of corn, clover or alfalfa, and livestock, will enable them to produce more grain—wheat, oats, etc.—than can be produced by the ordinary system of strictly grain farming.

If you have noticed a decrease in profits, due to lower yields, or an increase in weeds and plant diseases, and need a crop to help keep up the fertility, turn to good pasture and hay; a crop that will grow where and when nothing else does, early in the spring, late in the fall, on the alkali, wet, dry, stony or gumbo spots, try sweet clover.

Sweet clover has long been known as an outcast among plants—growing by the roadside and in waste places, often being cursed, except by the bee-keeper. It seems now that, like many other things we at first rejected, it is finding its place among the valuable crops on all farms. Sweet clover is no longer an experimental crop. An increasing acreage is being grown on thousands of farms, in every state and province on the continent, and is filling a need that no other crop ever has filled.

There are several species of sweet clover, but for our purpose we will divide them into two classes, White Blossom and Yellow Blossom, as these are the two which are mostly grown. White Blossom is the variety most commonly found in gardens, and is great many people are beginning to favor the Yellow Blossom, on account of its early maturity and possibly a little finer stem, thus making better hay than the White Blossom. There are selections being made from these two varieties and claims made that they are superior in various ways, such as being earlier, cold resistant, less bitter, more leafy, etc. There undoubtedly is merit in all these claims and great improvement may be expected from careful selection and breeding.

When just beginning to grow, sweet clover so closely resembles alfalfa that many will mistake one for the other. They may be distinguished by noticing the edge of the leaves; the sweet clover leaves are much like saw teeth, while the alfalfa is almost smooth, or by the rather bitter taste of the sweet clover, which is not true of alfalfa. When older the sweet clover develops a main stem with many branches, while alfalfa produces many stems from the crown, with but few branches.

The blemish sweet clover, when sown alone in the spring will make

considerable growth—one to three feet and may be cut for hay. Under favorable conditions two crops of hay may be cut the first year. It is the nature of this plant to store up large stocks of root food which is used the second year in the production of seed. Hence, pasturing heavily or cutting close before it has made maximum growth may limit the growth and seed production the second year to some extent. In favorable seasons, sweet clover makes excellent fall pasture, after the small grain is cut.

ECLIPSE FASHIONS  
Exclusive Patterns

1246

The New Costume Blouse

Fashioned of a lovely printed and hemmed material, with over-blouse of Russian, indicating that it is a dress, so long in length that it fits well. Fine tucks define the hips, and create just enough fullness to give the new blouse a trim and graceful effect. The smart arrangement of the tie collar at neck, and front opening back to form a V. A sleeve extension is joined to the shoulder, and gathered into hands at the wrists. No 1246 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 2½ yards 46-inch all plain material, or 3½ yards 46-inch hemmed material as illustrated. Price 20 cents.

The series of distinctive dress designs will be available for ladies in good taste, rather than for ladies of a more eccentric nature. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book will be practical and will maintain the spirit of the mode of the moment. Price of the book 10 cents the copy.

### ON THE AIR

What Is Doing In The World of Radio

Some folks are just bugs about the radio. Or, as you might say, they are microphones microbes.

While listening in at Battle Creek, Mich., Paul Stevens, 20, heard over the radio that his uncle had left him a fortune.

Since the radio broadcasting stations quit announcing the names of persons who wrote or telephoned to them, the "fan mail" to broadcasters has dropped off heavily at Chicago.

The landscape-loving motorist whose view of wooden dolls is obscured by billboards may find a fellow suitor in the radio fan bent by radio advertising, whenever he turns the dial of his receiving set.

Proposals to broadcast the House of Commons debates have been likened to soap-box oratory by many Conservative members of the British Parliament who have put themselves on record as being against the introduction of the microphone.

An interesting record in long distance radio reception on a moving train has been established by the Continental Limited, the transcontinental express of the Canadian National Railways, in picking up and holding for 30 minutes a broadcast from Vera Cruz, Mexico.

London will soon have a theatre where plays will be staged for broadcast and not for the benefit of admission. An attempt was made recently at Covent Garden Opera House, where an open was performed and broadcast, there being no stage setting or costumes used.

Radio signals are better 600 miles from a broadcast station than when they are 300 miles, according to engineers of the radio department of the General Electric Company, under whose supervision an exhaustive investigation of radio wave propagation is now being made.

Twelve radio "mikes" have been installed in the freight yards of the Illinois Central Railroad, Chicago, and the system, with other improvements, has reduced the switching force from 288 men to 27 men. The "mikes" are connected to a universal loud speaker circuit, so that orders and responses of each of the ten switch-towermen, the train dispatcher, and the scalemaster are audible to all twelve.

### Stomach Cramps Yield to "Nerviline"

When doubled up at midnight with cramps you don't feel like experimenting with what you want to something to remove the cramps. Nerviline acts effectively as Nerviline. Take twenty drops in a little awefected water, and drink it. The cramps are gone. Nerviline is about the same price as most medicines, and because so strong, only a small dose is required to give instant effect. For stomach, gas, cramps, etc., get "Nerviline" to day. 36¢ at dealers.

### Huge Tower For Leipzig

One Being Erected Twice As High As Eiffel Tower

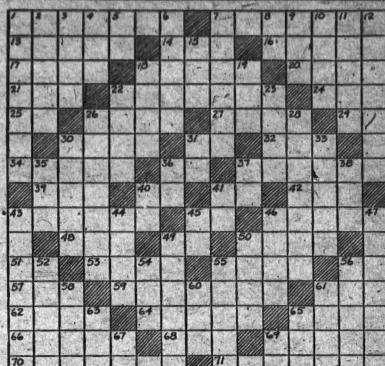

The city of Leipzig, Germany, is erecting a steel tower, 1,960 feet high, about twice as high as the Eiffel Tower in Paris, which is to serve as a generator of electric power and as a wireless station. The cost of the tower will be about one million dollars. It is said that Berlin is considering the question of building a similar tower.

Japan Surprises Naval World

Japan has sprung a surprise on the naval world. She is building four cruisers, which, although smaller and cheaper than the 10,000-ton Washington treaty ships, are formidable fighting units, according to Hector Bywater, a leading naval critic.

The true test of good manners is to be decent to the fellow who isn't as important as you are.

### OUR CROSSWORD PUZZLE

Horizontals	49—Intro.	15—at this place.
1—The Devil's study.	50—Dance.	16—Pou.
2—to assert, harangue.	51—Neuter pronoun.	22—Violent anger.
3—to send in return.	52—A seasoning.	23—A heroic poem.
4—a constellation.	53—A bundle.	24—Furniture rollers.
5—Scarecrow.	54—Sister.	25—A title.
6—To publish.	55—A discourse.	26—Near at hand.
7—Warns.	56—A mean fellow.	27—Like.
8—to wait for.	57—At that place.	28—Mad.
9—a large vessel.	58—To be listless.	29—Allowing that.
10—to crawl again.	59—To try.	30—Tourist (colloq.).
11—a machine or rotary piece of machinery.	60—A small wax candle.	31—Primal.
12—Article.	61—Harvesters.	32—Moderate.
13—to type or write (also typewrite).	62—Insect-like creatures.	33—Tourist (colloq.).
14—a vehicle.	63—A violent outburst.	34—A repast.
15—to induce.	64—Act of selling.	35—Primers.
16—a work with two parallel meeting at a salient angle.	65—Irritates.	36—Unpleasant.
17—To exist.	66—A torment.	37—Unkind.
18—Play performances.	67—To allow.	38—A violent outburst.
19—The chief track.	68—Consumed by fire.	39—An Indian city.
20—Position (pos).	69—Excavation.	40—Goliath.
21—Part of the verb "to be".	70—To chisel.	41—Allowing that.
22—a visit.	71—A vegetable.	42—To contend with.
23—in import of State of Washington.	72—Conjunction.	43—To lay over.
24—Preposition.	73—A map for government.	44—To stir furiously.
25—Soon.	74—Many names.	45—Poetic form of "you" (poet).
26—Sooner.	75—Porterable chalice.	46—Seventh note of scale (mus.).

### SUNDAY SCHOOL LESSON

MAY 9

#### ABRAM AND THE KINGS

Golden Text: In all these things we are more than conquerors through Him that loved us. Romans 3:27.

Lesson: Genesis 14:1-24.

Devotional Reading: Isaiah 61:1-6.

Explanation and Comments

Four Kings War With Five in the Valley of Siddim, verses 1-12—Read the Historical Background. For twelve years five kings, or chieftains, of the region around the Dead Sea (or in Siddim) had been vassals of Chedorlaomer, King of Elam. In the thirteenth year they rebelled and the year following Chedorlaomer united a number of other kings, which included the region from Syria to the Gulf of Akaba. With him were associated three other kings, Amraphel, King of Shinar, Birbiel, King of Ellasar, and the fourth king, Abimelech, King of Gerar. They marched against the five kings, and when they met, the battle was fought, and the invaders were victorious. The region abounded in bitumen (slime) pits and dead sea boats on the surface of the Dead Sea, where they were to stand by the five Canaanite kings of that section, the kings of Sodom, Gomorrah, Admah, Zedekah and Zoar. The battle was fought, and the invaders were victorious. The region abounded in bitumen (slime) pits and dead sea boats on the surface of the Dead Sea, where they were to stand by the five Canaanite kings of that section, the kings of Sodom, Gomorrah, Admah, Zedekah and Zoar. The battle was fought, and the invaders were victorious. The region abounded in bitumen (slime) pits and dead sea boats on the surface of the Dead Sea, where they were to stand by the five Canaanite kings of that section, the kings of Sodom, Gomorrah, Admah, Zedekah and Zoar. The battle was fought, and the invaders were victorious. The region abounded in bitumen (slime) pits and dead sea boats on the surface of the Dead Sea, where they were to stand by the five Canaanite kings of that section, the kings of Sodom, Gomorrah, Admah, Zedekah and Zoar. **Man to Man**

Let's have a little heart-to-heart talk about our tailoring. When you pay a goodly amount for a suit made to your measure, you want it to fit perfectly. And you want cloth that is pure wool and durable, workmanship that looks after details, style that's faultless. These things—and more—you'll get at this shop. We're the "fussy" man's tailor.

**Items of Local and General Interest**

A site has been selected at Water-  
ton Lakes for a fish hatchery.

A gentleman should always precede  
his lady friend through the wind-  
shield.

Every man should rise by his own  
efforts. Alarm clocks sometimes go  
wrong.

The British government will pub-  
lish a daily newspaper during the  
strike period.

A bride's mental progress: First  
week, "hiss" third month, "ours,"  
second year, "mine."

Modern cars have every conven-  
ience, except a place on the steering  
wheel to park the cork.

Mr. Alf. Hall, former resident of  
Blairmore, has been on the sick list  
at Lethbridge for some time.

To prevent flies from sticking to  
the interior walls of your house, pa-  
per the walls with Albertx oil-cer-  
tificate.

Miss Weber of the Upton tailoring  
staff, is a patient in Coleman hospital,  
having gone under an operation for  
appendicitis.

Mr. Justice McCarthy has resigned  
as judge of the trial division of the  
Supreme Court of Alberta, and Mr.  
Frank Ford, K.C., has been named as  
successor.

J. D. Matheson, K.C., of Macleod,  
is in Ottawa, where he represents  
Messrs. Maunsell and Buckwell in  
the appeal case of the board of trustees  
of the Lethbridge Northern Irrigation  
District versus Maunsell and Buck-  
well.

Jim Hansen left Bellevue for Trail  
on Sunday morning last. On Friday  
night he was tendered a banquet by  
hockey officials and friends in the  
Bellevue Inn. Jim will be keenly  
missed from the ranks of the Belle-  
vue team next season.

To celebrate the coming of age of  
the Province of Alberta, which was  
formed twenty-one years ago, a huge  
historical pageant will be staged in  
Edmonton under the auspices of the  
Edmonton Exhibition Association dur-  
ing the week of the annual exhibition,  
July 12 to 17.

A Scotchman a few days ago entered  
Evans' store and enquired the price of a corkscrew. Advised that it was worth twenty cents, he re-  
marked: "The devil with you, I can  
get one at Lethbridge for 15 cents!" He  
bought a return ticket and no  
more has he to borrow this handiest  
of all tools from a neighbor.

The Elks purpose holding a social  
evening in the near future, at which  
their wives, daughters and sweet-  
hearts will be included. Tenders will  
be received from young ladies desirous  
of accompanying bachelor Elks on  
this occasion up to and including  
May the 17th. The lowest and any  
tender not necessarily accepted.

Everywhere science keeps marching  
ahead while fundamentalism continues  
to discuss old Jonah and the  
whale. That's why science keeps in  
the lead. What goes on in science  
is more important than anything that  
ever happened in the whale's belly,  
and really religious people realize  
that. They concentrate attention on  
the greatest of miracles, which is the  
creation of the brain of man.—Ex.

The head of a fish is three feet  
long, the body is equal to the length  
of the head plus the length of the  
tail, and the tail is equal to the length  
of the head, plus half the length of  
the body, and George Passmore is  
worrying himself sick to find the  
length of the fish. He says it is  
worse than finding out how old was  
Emin. If you can help him out in  
his mathematical difficulty he will  
appreciate it.

When your friends desert you,  
trade in your open car for a closed  
model.

Correct this sentence: "O'Neill won  
sixty cents off Little."—Author un-  
known.

Calgary Elks have decided to buy  
only Canada-made goods for their  
carnival.

Correct this sentence: "I'll be ready  
to go," said the flapper, "as soon as  
I dry the dishes for mother."

Dr. J. S. Hynes returned Monday  
morning from a visit to Rochester,  
New York, Chicago and other points  
as far east as Montreal.

About fifty couples were guests of  
Mr. J. Charronville at a dance given  
in the Greenhill Grill on Friday night  
last.

The ladies of St. Anne's church will  
hold a lava party on or about the  
16th of June. Watch for later an-  
nouncements.

The contract has been let for the  
building of a \$35,000 extension to the  
Outfitters' Maritime Home at Pic-  
ton, Nova Scotia.

A senior football league game will  
be played on the Hillcrest athletic  
grounds on Saturday evening between  
Fernie and Hillcrest.

Messrs. Linville and Chipman are  
spending the week in camp on the  
North Fork, where they are in quest  
of a grizzly. Mrs. Linville and Mrs.  
Chipman are accompanying them.

The first big football game of the  
season took place at Coleman on Sat-  
urday afternoon last, when Hillcrest  
emerged winners by five to one. The  
Hillcrest boys were accompanied by  
a large crowd of rooters.

The girls of the Vici Group of the  
C.G.I.T., under the supervision of  
their leader, Mrs. Nellie Evans, con-  
ducted a very successful safe and tea  
in the Lodge Hall on Saturday after-  
noon last. Upwards of \$90 was re-  
collected.

Fred Martinovich, much wanted  
Calgary convict, has fallen a victim  
to the Dominion-wide finger print sys-  
tem and was arrested in Oshawa, On-  
tario. He escaped from a Calgary  
jail after being sentenced to a two-  
year term in Prince Albert peniten-  
tial.

Blairmore subordinate Lodge No.  
88, I.O.O.F., and Crowview, Rebekah  
Lodge No. 86 held their 10th anni-  
versary services in the Lodge Hall on  
Thursday evening last. Following the  
services, refreshments were served and  
a programme of music, etc., was  
rendered, followed by dancing.

A political in making a speech  
commented on the ease with which it  
was possible to be misunderstood. On  
one occasion, when a small boy, he  
said he had been whipped for telling  
the absolute truth. "Well, it cured  
you, alright," came the emphatic com-  
ment from the back of the hall.

On Sunday evening next, a special  
Mothers' Day service will be held in the  
Hillcrest United Church. Mrs. D.  
K. Allan, of Coleman, will be the spec-  
ial speaker. The C.G.I.T. girls will  
form the choir for the occasion. A  
cordial invitation is extended to all  
fathers, mothers, daughters and sons  
to attend this service.

What is believed to be a record  
broadcast transmission was reported  
recently to the Canadian General  
Electric Company from Perth, West-  
ern Australia, 14,498 miles from  
Schenectady, New York. The time  
difference between Schenectady and  
Perth is thirteen hours east and eleven  
hours west. The shortest path  
would carry the signal through the  
Arctic circle. If the signal followed  
the path of darkness, the route would  
be through the Antarctic circle.

A Detroit woman has died from  
the excessive use of tablets to reduce  
weight.

Sanger—"I want a hat that will  
suit my head." Kerr—"Yes sir. A  
soft one?"

We had fresh strawberries, of very  
excellent quality, on the market here  
last week.

Mr. A. McLeod returned on Friday  
night last from a visit to Portland  
and Seattle.

Miss Aileen Pizard came out of  
hospital on Sunday, after a success-  
ful operation for appendicitis.

Commissioner Dinning, of the Al-  
berta Liquor Control Board, was in  
town on Thursday of last week.

The average woman has a vocabu-  
lary of only 800 words. A small  
stock—but oh, what a turnover!

Remember the sale of work, home  
cooking and tea, to be held in the  
Lodge Hall from 2 to 6 on Saturday.

Dave Jenkyn, court reporter, has  
returned to his home in Lethbridge  
after being a patient in a Calgary  
hospital for some months.

The regular monthly meeting of the  
I.O.D.E. will be held on Monday  
next, May the 10th, at 7.30 p.m. in  
the Greenhill hotel parlor.

Mr. G. Steeves returned last night  
from Calgary, where he had attended  
the funeral service of his grand-  
mother, Mrs. Bayne. He was accom-  
panied by Mrs. E. Madden, of Lund-  
breck.

Mr. and Mrs. Frank Wright return-  
ed from England last week end. Mr.  
Wright will be given preliminary  
hearing tomorrow on defalcation  
charges preferred by the Town of  
Blairmore.

Liquor is supposed to be the orig-  
inating influence of all crime. The  
United States, under prohibition, has  
more murders, suicides, divorces, run  
cases, holdups, robberies, marriages,  
etc., than all the rest of the civilized  
world.

The Kingston Whig quotes a phy-  
sician who says: "The really sensible  
people are those who wear just  
enough clothing to keep them from  
being arrested." Judging by that  
standard, the intelligence of the girls  
of today is simply amazing.

The tree-planting slogan in many  
Alberta towns today is "A Tree a  
Man." Blairmore has done even bet-  
ter than that, for to cruise around  
the town today one will figure that at  
least an average of two trees a man  
have been planted within the town  
limits this spring.

BLOSSOM TEA—A Blossom Tea  
will be held in the Elks' Hall on Sat-  
urday, May the 15th, at the usual  
hours. A numbered daffodil with  
each cup of tea. The party holding  
the lucky number will receive a dozen  
roses. Proceeds for the Red Cross  
Altruistic Girls' Club.

Correct this sentence: Bill Venish  
says: "No longer can I entertain  
jokes on the Scotchmen. Bob Gray  
offered me a free ride to Fernie and  
back and wouldn't allow me to spend  
one nickel. Then, upon arrival in  
Blairmore he gave me ten dollars for  
having accompanied him."

A timely note of warning to spec-  
ulators in German bonds is contained  
in a statement issued by Hans Kru-  
ger, special commissioner for German  
government loans, who has offices in  
the Banque Canadienne Nationale, at  
Montreal. He points out that most  
of the literature recommending these  
bonds is misleading, evidently intention-  
ally so, and that the prices at  
which the bonds are offered are enormous  
as compared with contemporary  
prices for the same issues in Ger-  
many.
